by Akshay Saini

Professional Experience

Android App Developer, *Freelancer*
2018 – Present
- Developed and published 5+ Android applications, collectively surpassing 1 million downloads.
- Used **Java/XML** via Android Studio and later migrated to **React Native (JavaScript)** for cross-platform development.
- Monetized apps with **AdMob & Facebook Ads**, generating consistent revenue.
- Regularly implemented user feedback to improve app functionality, resulting in high user ratings and retention rates.
- Managed app lifecycle independently—development, testing, launch, and updates.

Networking Intern, *Tata Consultancy Services*
2017
- Supported IT infrastructure operations and documentation for internal networks.

Projects

CodeRespite: Refresh Your Tech Skills,
React Native, Firebase, AsyncStorage, JavaScript ⧉
A self-paced mobile learning app covering HTML, CSS, JavaScript, Node.js, React, and React Native. Features include reading lessons, quiz modules, progress tracking.

Trivia Quest AI: Fun Quiz Game, *React Native, OpenAI API, JavaScript, AsyncStorage, Firebase Auth* ⧉
An AI-powered quiz app where users answer dynamic questions generated by OpenAI. Offers real-time feedback and explanations to enhance learning.

Spin the Wheel : Pick for me, *React Native, JavaScript* ⧉
A utility app to create customizable spin wheels for random choices - ideal for games, raffles, and quick decisions. Lightweight and responsive for all screen sizes.

CodeRespite.com, *React.js, Redux, React Router, Node.js, Express, MySQL, Tailwind CSS* ⧉
Personal tech website and project hub featuring live demos and GitHub links. Designed to showcase a wide range of personal projects—from static HTML pages to full-stack web apps.

Netflix GPT, *React, Redux, React Router DOM, Firebase Authentication, TMDB API, OpenAI API, Tailwind CSS* ⧉
A movie recommendation platform that uses TMDB API for search/browse and integrates OpenAI for personalized suggestions. Includes secure login, movie detail pages, and a dynamic UI.
