amit.coderspite.com | github.com/amit265 | linkedin.com/in/amit265/

React Native & Android Developer with 5+ years of experience building and shipping production-ready mobile applications. Expert in **iOS & Android deployment**, **TypeScript**, and **Real-time Data Sync**. Lead Developer at Destya Studio with a proven track record of architecting scalable mobile solutions and AI-driven features.

PROFESSIONAL EXPERIENCE

Lead React Native Developer | Destya Studio (Remote) | Jul 2024 – Present

- **Real-Time Sync**: Engineered a shared-session feature using **Firebase Realtime Database** for synchronized game states and live user reactions in "Question Games".
- **Cross-Platform Delivery**: Architected and published 4+ production apps to **Apple App Store** and **Google Play Store**, managing the full SDLC from design to submission.
- **Advanced UI/UX**: Developed multi-mode functionality (Couple vs. Single mode) and interactive quizzes using React Native, Redux, and custom animations.
- **Architecture & Stability**: Implemented **offline-first** caching via AsyncStorage and utilized **Firebase Crashlytics** to maintain high app stability and user retention.
- **AI Implementation**: Integrated OpenAI APIs to power intelligent trivia and dynamic content generation.

Civil Services Candidate | Bihar Public Service Commission (BPSC) | Jan 2022 – Jul 2024

- **Analytical Growth**: Dedicated two years to intensive civil services preparation, qualifying for the **Mains Examination** in 3 consecutive attempts.
- **Technical Pivot**: Mastered React Native, TypeScript, and the MERN stack in late 2023 to transition back into modern mobile development.

Independent App Developer | Almanac Explorer | Jul 2018 – Dec 2021

- **Native Development**: Built and maintained a portfolio of native Android applications using **Java and XML**.
- **Lifecycle Management**: Managed Play Store publishing, AdMob integration, and policy compliance for a diverse app portfolio.

KEY PROJECTS [android](#) | [ios](#)

- [Question Games](#): Engineered a real-time shared-session feature using **Firebase Realtime Database** and custom listeners to synchronize game states and live user reactions for 1,000+ potential concurrent sessions.
- [Trivia Quest AI](#): AI-powered quiz platform leveraging **OpenAI API** for smart explanations and progress tracking.
- [CodeRespite.com](#): Technical hub and portfolio built with **Next.js**, Redux, and Tailwind CSS.

SKILLS

- **Frameworks**: React Native, React, Next.js, Node.js, Express, Redux, Tailwind CSS.
- **Tools**: Firebase (Auth, Realtime DB, Crashlytics), MongoDB, Git, Android Studio, Xcode, Play Store & App Store Connect.
- **Languages**: TypeScript, JavaScript (ES6+).

EDUCATION & CERTIFICATIONS

- **B.Tech, Computer Science**: Aryabhatta Knowledge University, Patna (2014-2018) (CGPA: 8.21).
- **Certifications**: Namaste React & Node (Akshay Saini); JavaScript Algorithms (freeCodeCamp).
